New Mexico Demands Statehood of the 37th Congress.

Statehood! Statehood for New Mexico! Fight for it.

The Prospector received from the Interior department this week a copy of an abstract of the eleventh census. It is quite complete within itself.

It is reported that Japan is making preparation to tackle Russia. Japan no doubt has the navy and the nerve to fight the larger nation but Russia can mass ten times as many men.

It would be interesting reading if Col. Francisco Chavez, territorial superintendent of public instruction would write his memoir. It would embrace a great amount of New Mexican history that the present generation in New Mexico would be pained to read. It would also be a great treasure to hand down to the future generations.

The more an honorable citizen thinks of the low assessment of property in Taos country the more he blushes for shame. Who is responsible for this injustice? Every citizen of this county knows that we have more than \$500,000 taxable property within the borders of Taos county. Many citizens are assessed too high while others are assessed about one-fifth of the value of their property. Everyone should be assessed alike and the officer, let him be a county commissioner or an assessor, who fails to do so violates the oath of office he has taken. The voters may not forget such officers when they ask for their suffrage again.

## MINING NEWS

The Globe Tunnel people are having some work done on their tunnel this week.

H. K. Holloway of Trinidad is having the assessment on a number of his claims in this district worked.

The Anaconda drill is down over 125 feet and it is reported they are cutting through a large body of ore.

The Golden Treasure people are feeling fine over the outlook for their property. They believe they have discovered something good.

H. S. Bennett who is interested in the Iron Placer, left last Saturday with Mr. Bush for New York. He was well pleased and said he would be back early in the spring. Mr. Bennett is a pusher and the camp is in good luck, to have such a man interested in our camp.

Crescent.  
Mining development is on the increase again in the Bromide district, west of Tres Piedras, which is now being developed by the American.

Twelve or fifteen hundred thousand feet of lumber will be required by the Fraser Mountain Copper company at Amizett, this fall. The concentration plant will have a daily capacity of 100 tons to begin with, and will be increased later. The intention being to handle an immense quantity of the ore which will be quarried for a width of seventy feet.

## THANKSGIVING PROCLAMATION.

President Roosevelt Has Issued His Proclamation Fixing Thursday, November 28, as a Day of National Thanksgiving.

Washington, Nov. 2.—"The season is high when, according to the time-hallowed custom of our people, the president appoints a day as the special occasion for praise and thanksgiving to God.

"This Thanksgiving finds the people still bowed with sorrow for the death of a great and good president. We mourn President McKinley because we so loved and honored him; and the manner of his death should awaken in the breasts of our people a keen anxiety for the country, and at the same time a resolute purpose not to be driven by any calamity from the path of strong, orderly, popular liberty which, as a nation, we have thus far safely trod.

"Yet in spite of this great disaster, it is nevertheless true that no people on earth have such abundant cause for thanksgiving as we have. The past year in particular has been one of peace and plenty. We have prospered in things material and have been able to work for our own uplifting in things intellectual and spiritual. Let us remember that, as much as has been given us, much will be expected from us; and that true homage comes from the heart as well as from the lips and shows itself in deeds. We can best prove our thankfulness to the Almighty by the way in which on this earth and at this time each of us does his duty to his fellow men.

"Now, therefore, I, Theodore Roosevelt, president of the United States, do hereby designate as a day of general thanksgiving, Thursday, the twenty-eighth of this present November, and do recommend that throughout the land the people come from their wonted occupations and at their several homes and places of worship thank the Giver of all good for the countless blessings of our national life.

"In witness whereof I have hereunto set my hand and cause the seal of the United States to be affixed:

"Done at the city of Washington, this second day of November, in the year of our Lord, one thousand nine hundred and one, and of the Independence of the United States the one hundred and twenty-sixth.

[Seal]  
"THEODORE ROOSEVELT."  
By the president:  
JOHN HAY,  
Secretary of State."
